FOREWORD

The data in this publication on earned degrees conferred in the aggregate United States are based on survey instruments from the eighth and ninth annual Higher Education General Information Surveys (HEGIS), conducted by the National Center for Education Statistics (NCES). These instruments, "Degrees and Other Formal Awards Conferred," covered the periods July 1, 1972, to June 30, 1973, and July 1, 1973, to June 30, 1974.

The tables in this report provide data on baccalaureate and higher degrees. Summary tables show numbers of degrees granted by level of degree, institutional control and type, sex of recipient, State, and discipline division and specialty. Data on awards below the baccalaureate level are to be presented in a separate report entitled *Associate Degrees and Other Formal Awards Below the Baccalaureate, 1972-73 and 1973-74, Summary Data.*

The cooperation of the college and university officials who supplied the institutional reports has made possible a response rate of nearly 100 percent in 1972-73 and of 100 percent in 1973-74. Only one institution was unable to supply the necessary information for the 1972-73 year. The continued efforts and interest of the survey respondents and the State coordinators are deeply appreciated.

ACKNOWLEDGMENTS

Reports based on various portions of the Higher Education General Information Survey (HEGIS) were made possible by the cooperative endeavors of many individuals in the National Center for Education Statistics (NCES). For the present report, the following individuals made contributions of particular note:

Geneva C. Davis, statistical assistant, maintained the control logs and did much of the checking of tables;
L.E. Hull not only redesigned the textual material but materially assisted in the writing;
Linda D. Barry and Mary A. Gilbert were the typists who drafted the manuscript into readable form for review and editing.

PURPOSE OF THE SURVEY

Earned Degrees Conferred reports one widely used measure of output of higher education at a specific point in time. The survey includes all degrees granted (except honorary) by all institutions in the aggregate United States that are identified as degree granting by the *Education Directory, Higher Education.* This information provides a benchmark for reporting the pool of trained manpower available in discipline specialties, by level of training, and for eight selected professions. This information is required by a number of agencies of the legislative and executive branches of government at the State and Federal levels. The data are also requested by accrediting agencies, professional organizations, and a number of individual institutions interested in conducting comparative studies.

This edition of *Earned Degrees Conferred* continues the series of annual reports providing data on the distribution of earned degrees in the aggregate United States. This report covers the eighth and ninth years in the HEGIS survey series, and is the third report to use the taxonomy adopted in 1970-71 for the sixth HEGIS. All data for the 4 survey years (1970-71 through 1973-74) are thus directly comparable. As such, the publication provides the data for studies of trends in the numbers of degrees being granted in the various discipline specialties, as well as distributions by sex, geographic area, and type of institution. This information is of value to discipline-oriented professional associations, accrediting groups, government agencies which provide funding for various disciplines, and researchers and planners in postsecondary education.

SURVEY ORGANIZATION AND METHODOLOGY

DEGREE DEFINITIONS

The survey requests data for higher education degrees which are defined as follows:

Bachelor's—requires successful completion of at least 4 but not more than 5 years of academic work beyond high school. Includes degrees conferred in cooperative work-study plans which provide for alternate class attendance and employment in business, industry, or government.

Master's—requires successful completion of at least 1 year and sometimes 2 years of work beyond the bachelor's degree. Includes the degree of Education Specialist.

Doctor's—includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Ph.D. degrees in any field.

Other Degree or Certificate—requires completion of a program intermediate between the master's and doctor's degrees which is recognized by the awarding of a degree or certificate.

First-professional Degree—a degree which (a) signifies completion of the academic requirements to begin practice in the profession, (b) is based on a program which requires at least 2 years of college work prior to entrance, and (c) requires a total of at least 6 academic years of college work, including prior required college work plus the length of the professional curriculum.

SURVEY UNIVERSE

This report is based on data furnished by 1,655 institutions (representing 1,776 reporting units) in 1972-73 and 1,667 institutions (representing 1,809 reporting units) in 1973-74.* These constitute all of the reporting units in the National Center for Education Statistics' universe that could be identified as offering bachelor's or higher degrees during the periods July 1, 1972, to June 30, 1973, and July 1, 1973, to June 30, 1974. The survey universe for 1972-73 is based on the list of reporting units included in the *Education Directory, 1971-72, Higher Education* (DHEW Publication No. (OE) 72-95), with such changes in the fall of 1972 as were known to NCES. The survey universe for 1973-74 is based on the list of reporting units included in the *Education Directory, 1972-73, Higher Education* (DHEW Publication No. (OE) 74-11404) with such changes as were known to NCES in the fall of 1973.

The survey form utilized in collecting data for this report included a request for data on awards below the bachelor's level. To secure these data, institutions classified as having programs of at least 2 years and leading to an associate degree or other formal award were included in the survey universe. These data will be reported in *Associate Degrees and Other Formal Awards Below the Baccalaureate, 1972-73 and 1973-74, Summary Data.*

MAJOR CLASSIFICATIONS OF DATA

Type of Control—Reporting units were identified as "public" or "private" according to their classification in the *Education Directory, Higher Education.*

Types of Institutions—Selected tables in the report group reporting units into two categories: "universities" and "other 4-year institutions." Classified as universities are units that give considerable stress to graduate instruction, confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other units offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year" category.

Discipline Specialty (major field of study)—The classification of discipline specialties relies on *A Taxon-*

* In this report an institution may consist of one or more separately organized reporting units. For example, Southern Illinois University is a single institution composed of two reporting units: the campus at Carbondale and the campus at Edwardsville. (A central office of a university system is not considered a reporting unit for purposes of this study.)

*omy of Instructional Programs in Higher Education.** This was adopted by HEGIS in 1970 and is maintained to provide comparability of data on a continuing basis.

DATA COLLECTION

A copy of the survey form and accompanying instructions and definitions (see appendix B) was addressed to the president of each reporting unit listed in the survey universe, or, in more than one-half of the States, to a State coordinator who supplied the data from information submitted by the reporting units or coordinated the data collection with all or selected reporting units in the State. Follow-up letters and phone calls were made to State coordinators or institutional officials whose data were not received within a reasonable period of time after the due date of August 15, in each survey year.

* U.S. Department of Health, Education, and Welfare. Office of Education, National Center for Education Statistics. *A Taxonomy of Instructional Programs in Higher Education*, by Robert A. Huff and Marjorie O. Chandler, OE-50064-70. Washington: U.S. Government Printing Office, 1970.

DATA VERIFICATION

Three methods were utilized to verify the reasonableness of data submitted by each reporting unit:

1. A computer check providing a field-by-field comparison with the data submitted for the previous year was made. This procedure checked to determine whether the data varied by more than a predetermined percentage from the previous year's submission. The acceptable variance was based on the order of magnitude of the data field size: the greater the number of degrees, the lower the percentage of variance permitted.

2. Survey forms containing data items rejected by the computer check were examined visually by survey personnel to determine whether footnotes, explanatory notes, or readily recognizable human errors accounted for the apparent discrepancies. Where necessary, catalogs of the institutions were consulted for institutional offerings.

3. Finally, the remaining discrepancies were resolved by correspondence or telephone contact with State coordinators and institutional representatives.

Internal checks for consistency included the checking of accumulated totals against subtotals obtained from appropriate subsets of the data.

PRESENTATION AND COMPARABILITY OF THE DATA

TABLES

The seven basic tables in this report for both 1972-73 and 1973-74 contain what the authors believe to be the most comprehensive and useful groupings of the data within the constraints of publication. The tables are comparable to, and utilize the formats of, reports of previous years.

Table 1 is a brief historical comparison of degrees conferred, by level of degree, for the last 5 years, including the 2 survey years. Table 2 is a summary of the degrees conferred during the survey year, by level of degree and by control and level of institution. Tables 3, 3A, and 3B show State data for each of the degree levels. Table 4 shows bachelor's, master's, and doctor's degrees awarded, by discipline division. Table 5 shows bachelor's, master's, and doctor's degrees awarded, by discipline specialty within discipline division. Table 6 presents data on first-professional degrees conferred in eight selected discipline specialties. Table 7 summarizes intermediate degrees conferred during the survey year, by level and control of institution.

In addition to the tables, the facsimile form in appendix B provides data for each cell reflecting totals for the aggregate United States. These data are summarized in tables 5 and 6.

COMPARABILITY

Tables 1 through 6 in this report are comparable to tables 1 through 6 in the publications for 1970-71 and 1971-72. Table 7 in this publication is similar to table 10 in the publications of the previous 2 years, but provides greater detail.

Degree data for 1971-72 were used for the one institution (a public "other 4-year") unable to supply data for 1972-73. Total bachelor's degrees included amounted to 418, which was 2.6 percent of bachelor's degrees awarded in the State involved, and 0.04 percent of all degrees awarded nationally. The 30 master's degrees were 0.5 percent of master's degrees awarded in the State and 0.01 percent of those awarded nationally.

Comparisons with data prior to 1970-71 must be made with extreme care. The new taxonomy introduced in 1970-71 involved extensive changes. Any such comparisons should only be made by using the "translation table" contained in the taxonomy.

Tables showing the number of degrees conferred, by discipline division and specialty and by institution, for 1973-74 are being published in a separate edition, available only on request as long as the limited supply lasts, by writing to:

1/ AN INTERMEDIATE DEGREE IS ANY RECOGNITION (DEGREE OR CERTIFICATE) FOR A PROGRAM INTERMEDIATE BETWEEN THE MASTER'S DEGREE AND THE DOCTOR'S DEGREE (PH.D., ED.D., ETC.), WHICH IN ESSENCE IS THE DOCTOR'S DEGREE WITHOUT THE DISSERTATION. FOR EXAMPLE, MASTER OF PHILOSOPHY, CANDIDATE IN PHILOSOPHY, DOCTOR OF ARTS, ETC.

Appendix A

AN ALTERNATE METHOD OF AGGREGATION

The National Center for Education Statistics (NCES) has become aware, over the years, of the trend toward increasing numbers of multicampus institutions and entire systems of institutions, in which various units offer programs at different levels. It has become necessary to identify the level of program in each of the units separately, instead of following the traditional practice of a single identification for an entire conglomerate of units. There is also an increasing need for analysis of operations of individual units and for the ability to make interinstitutional comparisons, by level of reporting unit. Such comparisons require that the groups be homogeneous.

Beginning with the year 1971-72 NCES began classifying the constituent units of all multicampus and multi-institutional entities separately. This classification made it possible, and mandatory by fall 1972, that the separate entities be surveyed individually. These are the first 2 years in which data on "Degrees and Other Formal Awards Conferred" have been collected in such a manner.

Each individual campus (reporting unit) is now coded in one of six ways:

Code 1—University (including only those branches classified at the university level);

Code 2—Other 4-year institution (including only those branches classified at the other 4-year level);

Code 3—2-year institution (including only its own branches);

Code 4—4-year branch of a university;

Code 5—2-year branch of a university;

Code 6—2-year branch of an "other 4-year" institution.

Using the "old" method of aggregation, the one which is used in the main tables in this publication, reporting units aggregate as follows:

University = 1 + 4 + 5;

Other 4-year = 2 + 6;

2-year = 3.

The "new" method of aggregation, used in the tables in this appendix, is as follows:

University = 1;

Other 4-year = 2 + 4;

2-year = 3 + 5 + 6.

Because this publication deals with degrees at the baccalaureate level and above, certain categories of reporting units do not appear. Codes 3, 5, and 6 all relate to 2-year institutions or 2-year branches of universities or other 4-year institutions.

The general impact of the new method of aggregation is to reduce the number of students shown as receiving degrees from universities and to increase the number of degrees awarded by "other 4-year institutions." Table A shows the impact on each degree level

Table A.—Number of degrees moved from the "university" level to the "other 4-year" level by adopting the new method of aggregation of reporting units: 1972-73 and 1973-74

in each of the 2 survey years of changing the method of aggregation.

Tables 2 and 7 in the body of the report are the only tables in this publication affected by this change. To simplify comparisons between the two methods of aggregation, a numbering system is used which is consistent. In this publication the table which is aggregated by the "new" method has 100 added to the number used for the table aggregating the same data by the "old" method. Thus, tables 2 and 7 can be compared directly with tables 102 and 107 in this appendix.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

DEGREES AND OTHER FORMAL AWARDS CONFERRED BETWEEN JULY 1, 1972 AND JUNE 30, 1973

SURVEY COVERAGE

This report is divided into 3 parts.

PART A is concerned with first-professional degrees only.

PART B is concerned with bachelor's, master's, and doctor's degrees.

PART C is concerned with awards below the bachelor's level *(Associate in Arts degrees and other formal awards).*

Many institutions will appropriately skip one or more of the 3 parts. If a particular part *(A, B or C)* does not apply to you, please indicate that fact and forward that part to us along with those you did complete.

Classification of the major fields of study used in this survey has been presented in the following publication:

U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Educational Statistics. ***A Taxonomy of Instructional Programs in Higher Education.*** By Robert A. Huff and Marjorie O. Chandler, OE-50064-70. Washington: U.S. Government Printing Office, 1970. Price: $ .45.

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

GENERAL INSTRUCTIONS

1. INCLUSIVE DATES. Report only those degrees *(including awards in Part C)* which were actually conferred between July 1, 1972 and June 30, 1973. Degrees earned but not yet conferred during this time period should be reported in next year's survey.

2. INSTITUTIONAL COVERAGE. A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in item 6 on the cover page, which is intended to permit complete identification of the reporting unit. **Do not** include degrees conferred by branches of your institution located in foreign countries.

3. CONSULTATION ON PROBLEMS. If clarification of the definitions and instructions is needed, please consult the survey director, Mrs. Mary Evans Hooper, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Or you may reach Mrs. Hooper by telephone: (202) 962-7301.

4. RETURNING FORMS. Completed report forms should be addressed: Attention: Room 2164-HEGIS, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

5. MAJOR CHANGES. **If the number of degrees you report in any area is significantly larger or smaller than the number you reported last year, it will be most helpful if you will include explanatory notes on the form or on an accompanying sheet of paper.** Please indicate by circling the "line number" in column 3 if degrees were conferred *for the first time* in 1972–73 in a discipline specialty new to your institution.

6. Please verify your entries and check all the addition before returning the form.

7. SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR EACH OF THE 3 PARTS.

NAME OF INSTITUTION	1. INSTITUTION CODE NUMBER

INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS, 1972-73

Only the 8 professions listed below should be reported in Part A. Within these professions, report **first-professional** degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of all entries in columns 4 and 5.

PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS *(Requiring at least six years of study)*

INSTRUCTIONS FOR PART B: BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

1. TYPES OF DEGREES. Report earned bachelor's, master's, and doctor's degrees, except for those first-professional degrees reported in Part A. Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work.

Do not report honorary degrees.

Certificates for work between the master's degree and the doctor's degree should be separately listed at the end of Part B. See 5(d) below.

(Report Associate in Arts degrees or similar awards below the bachelor's level in Part C.)

2. GROUPING OF DISCIPLINES. The major fields of study to be reported here fall in the following discipline divisions:

0100 Agriculture and Natural Resources	1300 Home Economics
0200 Architecture and Environmental Design	1400 Law
0300 Area Studies	1500 Letters
0400 Biological Sciences	1600 Library Science
0500 Business and Management	1700 Mathematics
0600 Communications	1800 Military Sciences
0700 Computer and Information Sciences	1900 Physical Sciences
0800 Education	2000 Psychology
0900 Engineering	2100 Public Affairs and Services
1000 Fine and Applied Arts	2200 Social Sciences
1100 Foreign Languages	2300 Theology
1200 Health Professions	4900 Interdisciplinary Studies

3. SKIPPING INAPPLICABLE DISCIPLINES. Skip those discipline divisions in which your institution does not grant degrees. Many registrars, for example, will skip one or more of the following: 0100; 1200; 1800; 2300.

4. NUMBER OF DEGREES. Report all degrees (within the limitations of paragraph 1, above). If a student earned two degrees between July 1, 1972 and June 30, 1973 *(e.g.,* a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report each of the two degrees in its appropriate classification.

5. DEGREE LEVELS.

(a) Report all BACHELOR'S DEGREES requiring at least 4 but not more than 5 years of academic work in Columns (4) and (5) of the report-form. Also, report ALL bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAM in Columns (4) and (5). A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) MASTER'S DEGREES. The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one *(sometimes two)* academic years of work beyond the bachelor's degree.

Except for the Master of Divinity degree (Part A), report all master's degrees in Part B, Columns (6) and (7) *(even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.)* Report Education specialist (6-year degree) in same columns as master's degrees, in appropriate discipline specialty in Education (0800).

(c) DOCTORATE. The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. *(In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.)* Please report the doctor's degrees *(except those included in Part A)* in Columns (8) and (9) of the report-form.

(d) OTHER DEGREE OR CERTIFICATE. If your institution provides any recognition *(degree or certificate)* for a program intermediate between the master's degree and the doctor's degree *(Ph.D., Ed.D., etc.)* which in essence is the doctor's degree without the dissertation *(for example, Master of Philosophy, Candidate-in Philosophy, etc.) (do not include 6-year specialist degrees)*, please report the name of the degree or certificate and the number of students receiving it in the item at the end of Part B *(after Item No. 9800.) (Do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees in the report-form.)*

6. CLASSIFICATION OF DEGREES ACCORDING TO MAJOR FIELD OF STUDY.

(a) Specific Classification. Classify degrees as specifically as the list of specialties in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (0502), NOT in Business and commerce, general (0501).

(b) Degree of Doctor of Philosophy. Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.

(c) Majors of Students Prepared to Teach. The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, biology, mathematics, or foreign languages, should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages and NOT in Education. On the other hand, the degrees of students who have prepared to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1), Art education (0831), and Music education (0832).

(d) Split and Double Majors. When a student graduates with a split major or a double major – e.g., in Spanish and French – report the degree either in the area of greater specialization or as half a degree (.5) in French and half a degree (.5) in Spanish. *(If the split or double major involved Spanish and an unlisted language, the second language should be reported in Other, specify (1199)).* Similarly in the case of a student with a split or double major in Biology and Chemistry, report the degree in the area of greater specialization or as (.5) degree in Biology and (.5) degree in Chemistry.

(e) Unlisted Fields of Study. When classifying a specialty which does not seem to fit into the list, the institution has two choices: (1) it can be listed by name under "other" if it represents an unlisted specialty, or (2) it can be placed in a "general" category if it covers several listed specialties.

(f) General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form, such as Physical sciences, general (1901); Social sciences, general (2201); Humanities and social sciences (4903), etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social sciences, general.

(g) Interdisciplinary Studies. Code 4999 is for reporting fields of study which represent two or more broad discipline divisions; for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported here. Specify the name of the interdisciplinary study when reporting in 4999.

(h) **Before submission, please verify that the specialty subtotals (for example, lines 22, 33, and 52, etc.) are the sum of the specified preceding lines for every column (columns (4) through (9).**

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

DEGREES AND OTHER FORMAL AWARDS CONFERRED BETWEEN JULY 1, 1973 AND JUNE 30, 1974

SURVEY COVERAGE

This report is divided into 3 parts.

PART A is concerned with first-professional degrees only.

PART B is concerned with bachelor's, master's, and doctor's degrees.

PART C is concerned with awards below the bachelor's level *(Associate degrees and other formal awards).*

Many institutions will appropriately skip one or more of the 3 parts. If a particular part *(A, B or C)* does not apply to you, please indicate that fact and forward that part to us along with those you did complete.

Classification of the major fields of study used in this survey has been presented in the following publication:

U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Educational Statistics. ***A Taxonomy of Instructional Programs in Higher Education.*** By Robert A. Huff and Marjorie O. Chandler, OE-50064-70. Washington: U.S. Government Printing Office, 1970. Price: $ .45.

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

GENERAL INSTRUCTIONS

1. INCLUSIVE DATES. Report only those degrees *(including awards in Part C)* which were actually conferred between July 1, 1973 and June 30, 1974. Degrees earned but not yet conferred during this time period should be reported in next year's survey.

2. INSTITUTIONAL COVERAGE. A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in item 6 on the cover page, which is intended to permit complete identification of the reporting unit. **Do not** include degrees conferred by branches of your institution located in foreign countries.

3. CONSULTATION ON PROBLEMS. If clarification of the definitions and instructions is needed, please consult the survey director, Mrs. Mary Evans Hooper, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Or you may reach Mrs. Hooper by telephone: (202) 245-8392.

4. RETURNING FORMS. Completed report forms should be addressed: Attention: Room 2164-HEGIS, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

5. MAJOR CHANGES. **If the number of degrees you report in any area is significantly larger or smaller than the number you reported last year, it will be most helpful if you will include explanatory notes on the form or on an accompanying sheet of paper.** Please indicate by circling the "line number" in column 3 if degrees were conferred *for the first time in 1973-74 in a* discipline specialty new to your institution.

6. Please verify your entries and check all the addition before returning the form.

7. SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR EACH OF THE 3 PARTS.

NAME OF INSTITUTION	1. INSTITUTION CODE NUMBER

INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS, 1973-74

Only the 8 professions listed below should be reported in Part A. Within these professions, report first-professional degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of all entries in columns 4 and 5.

PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS *(Requiring at least six years of study)*

INSTRUCTIONS FOR PART B: BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

1. TYPES OF DEGREES. Report **earned** bachelor's, master's, and doctor's degrees, except for those first-professional degrees reported in Part A. Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work.

Do **not** report honorary degrees.

Certificates for work between the master's degree and the doctor's degree should be separately listed at the end of Part B. See 5(d) below.

(Report Associate in Arts degrees or similar awards below the bachelor's level in Part C.)

2. GROUPING OF DISCIPLINES. The major fields of study to be reported here fall in the following discipline divisions:

0100 Agriculture and Natural Resources	1300 Home Economics
0200 Architecture and Environmental Design	1400 Law
0300 Area Studies	1500 Letters
0400 Biological Sciences	1600 Library Science
	1700 Mathematics
0500 Business and Management	1800 Military Sciences
0600 Communications	1900 Physical Sciences
0700 Computer and Information Sciences	2000 Psychology
0800 Education	2100 Public Affairs and Services
0900 Engineering	2200 Social Sciences
1000 Fine and Applied Arts	2300 Theology
1100 Foreign Languages	4900 Interdisciplinary Studies
1200 Health Professions	

3. SKIPPING INAPPLICABLE DISCIPLINES. Skip those discipline divisions in which your institution does not grant degrees. Many registrars, for example, will skip one or more of the following: 0100; 1200; 1800; 2300.

4. NUMBER OF DEGREES. Report all degrees (within the limitations of paragraph 1, above). If a student earned two degrees between July 1, 1973 and June 30, 1974 *(e.g.,* a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report each of the two degrees in its appropriate classification.

5. DEGREE LEVELS.

(a) Report all BACHELOR'S DEGREES requiring at least 4 but not more than 5 years of academic work in Columns (4) and (5) of the report-form. Also, report ALL bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAM in Columns (4) and (5). A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) MASTER'S DEGREES. The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one *(sometimes two)* academic years of work beyond the bachelor's degree.

Except for the Master of Divinity degree (Part A), report all master's degrees in Part B, Columns (6) and (7) *(even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.)* Report Education specialist (6-year degree) in same columns as master's degrees, in appropriate discipline specialty in Education (0800).

(c) DOCTORATE. The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. *(In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.)* Please report the doctor's degrees *(except those included in Part A)* in Columns (8) and (9) of the report-form.

(d) OTHER DEGREE OR CERTIFICATE. If your institution provides any recognition *(degree or certificate)* for a program intermediate between the master's degree and the doctor's degree *(Ph.D., Ed.D., etc.)* which in essence is the doctor's degree without the dissertation *(for example, Master of Philosophy, Candidate-in Philosophy, etc.) (do not include 6-year specialist degrees)*, please report the name of the degree or certificate and the number of students receiving it in the item at the end of Part B *(after Item No. 9800.) (Do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees in the report-form.)*

6. CLASSIFICATION OF DEGREES ACCORDING TO MAJOR FIELD OF STUDY.

(a) Specific Classification. Classify degrees as specifically as the list of specialties in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (0502), NOT in Business and commerce, general (0501).

(b) Degree of Doctor of Philosophy. Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.

(c) Majors of Students Prepared to Teach. The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, biology, mathematics, or foreign languages, should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages and NOT in Education. On the other hand, the degrees of students who have prepared to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1), Art education (0831), and Music education (0832).

(d) Split and Double Majors. When a student graduates with a split major or a double major – e.g., in Spanish and French – report the degree either in the area of greater specialization or as half a degree (.5) in French and half a degree (.5) in Spanish. *(If the split or double major involved Spanish and an unlisted language, the second language should be reported in Other, specify (1199)).* Similarly in the case of a student with a split or double major in Biology and Chemistry, report the degree in the area of greater specialization or as (.5) degree in Biology and (.5) degree in Chemistry.

(e) Unlisted Fields of Study. When classifying a specialty which does not seem to fit into the list, the institution has two choices: (1) it can be listed by name under "other" if it represents an unlisted specialty, or (2) it can be placed in a "general" category if it covers several listed specialties.

(f) General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form, such as Physical sciences, general (1901); Social sciences, general (2201); Humanities and social sciences (4903), etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social sciences, general.

(g) Interdisciplinary Studies. Code 4999 is for reporting fields of study which represent two or more broad discipline divisions; for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported here. Specify the name of the interdisciplinary study when reporting in 4999.

(h) **Before submission, please verify that the specialty subtotals (for example, lines 22, 33, and 52, etc.) are the sum of the specified preceding lines for every column (columns (4) through (9).**
